

# Patient Lab Results Report

Hospital: General Medical Center | Date: 2026-05-28 | Dept: Clinical Lab

## Summary

This report contains laboratory test results for 4 patients collected during routine checkups. Some records contain data quality issues including missing values and inconsistent date formats that require validation before processing.

## Lab Results Data

| date       | patient_id | lab_name | value | unit  | notes                        |
|------------|------------|----------|-------|-------|------------------------------|
| 2026-01-01 | P001       | HbA1c    | 7.4   | %     | Normal range                 |
| 2026/01/02 | P002       | HbA1c    |       |       | Missing value - needs review |
| bad-date   | P003       | Glucose  | 120   | mg/dL | Date format error            |
| 2026-01-04 | P004       | LDL      | 131   | mg/dL | Borderline high              |
| 2026-01-05 | P005       | HbA1c    | 5.9   | %     | Normal                       |

## Notes

- Patient P002: Value and unit fields are empty. Requires manual entry or re-test.
- Patient P003: Date field contains invalid format (bad-date). Expected ISO 8601 (YYYY-MM-DD).
- All HbA1c values above 6.5% are considered diabetic range per ADA guidelines.
- LDL values above 130 mg/dL are borderline high per ACC/AHA guidelines.
